Attached to this Supplementary Prospectus is an announcement made by the Company to the ASX on 23 April 2020 regarding the Follow-On Placement.

The amendments to the Prospectus outlined in section 2 below should be read in conjunction with the Prospectus.

The Follow-On Placement is made to certain persons, who are not persons to whom Listing Rule 10.11 applies, nominated by the Company, in conjunction with the Lead Manager.

Chairman's Letter

Dear Investors,

On behalf of the Directors of Imagion Biosystems Limited (**Imagion Biosystems** or **Company**), please find below a Prospectus associated with an offer to participate in a renounceable pro rata offer of shares in the Company (with free attaching New Options) to raise up to \$2,045,129 (before payment of Offer costs). The Lead Manager of the Offer, Mahe Capital, is partially underwriting the Offer to \$500,000.

Imagion Biosystems is a company dedicated to improving healthcare through the early detection of cancer by developing new non-radioactive and safe diagnostic imaging technology. By combining biotechnology and nanotechnology, the Company aims to detect cancer and other diseases earlier and with higher specificity than is currently possible. Imagion Biosystems has been listed on the Australian Securities Exchange (ASX) since June 2017.

In May of 2019 the Company reported the successful conclusion of toxicology testing of the nanoparticle injectable formulation for its HER2 metastatic breast cancer test; an important milestone demonstrating the material should be safe for use in human studies.

In July 2019 the Company received notice from the U.S. Food and Drug Administration (FDA) that the MagSense™ System had been designated as a "Breakthrough Device". Achieving the designation provides expedited communication with the FDA which will be valuable as the Company is currently seeking regulatory approval to undertake a first-in-human study.

In July the Company received more than \$2 million in R&D tax incentives from the Australian Tax Office ("ATO") for its 2018 tax year.

In November 2019 the Company raised \$3.3 million in a renounceable rights offer which allowed us to proceed with qualifying our contract manufacturers that will be responsible for making our material under current Good Manufacturing Practices, and initiating the purchase of the raw materials and key equipment to be used to make the material.

The purpose of the Offer is to raise up to \$2,045,129. via the issue of 204,512,879 shares in the Company at an issue price of \$0.01 per share to strengthen our balance sheet and provide necessary capital resources as we work towards accomplishing the business objectives we have communicated in our recent announcements.

The Board recognizes that the advent of the COVID-19 pandemic has created significant uncertainties both in capital markets and with regard to general business risks. To-date we have not had any significant setbacks, however we are acting now to ensure we have capital resources to withstand a possible near-term temporary disruption.

We are committed to prudent management of our capital resources and protecting our shareholders' interest through timely achievement of our first clinical study. While the COVID-19 crisis may have near-term impacts, it does not undo the progress we have made, or alter the importance of our remaining focused on our goal of undertaking our first clinical study; a milestone which we expect will unlock the clinical and commercial potential of our technology and the unmet need for early cancer detection.

This Prospectus includes detailed information about the Offer, as well as other details that may be relevant when assessing an investment in the Company, including the general and specific risks associated with an investment in the Company, which are in Section 3 of this Prospectus. I encourage you to read this Prospectus carefully and in its entirety before making your investment decision and, if required, consult with your stockbroker, solicitor, accountant or other independent professional adviser.

On behalf of the Board, I present the Offer to you and look forward to your continued support as a shareholder of the Company and as an advocate for improving cancer care.

Yours sincerely

General business operations and working capital	\$1,976,000
Costs of Offer	\$220,000
Total uses of funds	\$5,686,000

Actual expenditure may differ significantly from the above estimates due to a number of factors including the outcome of operational and commercialisation activities, regulatory development, market and general economic conditions and other factors (including the risk factors outlined in Section 3).

Unallocated working capital may be utilised by the Company to pay for cost overruns in budgeted expenditures (if any), and in the administration of the Company.

1.3 Your Entitlement and acceptance

Your Entitlement to participate in the Offer will be determined on the Record Date, being Monday, 30 March 2020. The Entitlement of Eligible Shareholders receiving this Prospectus is shown on the Entitlement and Acceptance Form sent to Eligible Shareholders with this Prospectus.

You may accept all or only part of your Entitlement. If your acceptance exceeds your Entitlement, unless you apply for Additional Securities (refer to Section 1.6), acceptance will be deemed to be for your maximum Entitlement and any surplus Application Monies will be returned (without interest).

1.4 Opening and Closing Dates

The Company will accept Entitlement and Acceptance Forms from the Record Date for determining Eligible Shareholders' Entitlements, being Monday, 30 March 2020, until 5.00pm AEDT on the Closing Date or such other date as the Directors in their absolute discretion shall determine, subject to the requirements of the Listing Rules.

1.5 Underwriting

The Offer is partially underwritten to \$500,000.

Under the Underwriting Agreement, the Company has agreed to pay the Underwriter a management fee of 1.0% of the total offer proceeds and an underwriting fee totalling 5.0% of the underwritten amount (plus GST) in consideration of the Underwriter performing its obligations under the Underwriting Agreement.

Under the Underwriting Agreement, the Underwriter must procure subscriptions (including by appointing sub-underwriters) for the difference between the amount underwritten and the amount raised under the Entitlement Offer.

The Underwriter may terminate its obligations to underwrite the Entitlement Offer under the Underwriting Agreement with the Company in circumstances typically found in agreements of this nature (in certain of these circumstances including having regard to the materiality of the success, settlement or marketing of the Offer) if the circumstances arise in relation to the Entitlement Offer. These circumstances include, without limitation:

- (a) ASIC applies for certain orders or commences certain investigations in relation to the Company under the Corporations Act
- (b) management or Board Certificates required to be provided to the Underwriter are not furnished when required or are defective in any material respect;
- (c) this Offer Document or any aspect of the Entitlement Offer does not comply in any material respect with the Corporations Act or the ASX Listing Rules or any other applicable law;
- (d) the Company alters its capital structure or constitution without the prior written consent of the Underwriter;
- (e) any member of the Company group is insolvent;
- (f) the Company is prevented from issuing the Entitlement Offer Shares within the time required by the Listing Rules or applicable laws;
- (g) the Company withdraws all or any part of the Entitlement Offer or indicates that it does not intend to or is unable to proceed with the Offer;
- (h) unconditional approval by ASX for official quotation of the Shares is not granted (or is withdrawn) by the timetabled date or ASX makes an official statement that it will not be granted;
- (i) the S&P/ASX 200 index falls by 7.0% or more below its level (on the business day before the date of the Underwriting Agreement was signed) for 2 consecutive business days between (and including) that date and the respective settlement dates.
- (j) there is an adverse change, or an event occurs which is likely to give rise to an adverse change, in the business, assets, liabilities, financial position or performance, profits, losses, results, operations or prospects of the Group;
- (k) a representation or warranty made or given by the Company under the underwriting agreement is breached or proves to be, or has been, or becomes, untrue or incorrect or misleading or deceptive;
- (l) there is introduced, or there is a public announcement of a proposal to introduce, into the Parliament of Australia or any State of Australia a new law, or the Reserve Bank of Australia, or any Commonwealth or State, adopts or announces a proposal to adopt a new policy any of which does or is likely to prohibit or restrict the Entitlement Offer, capital issues or stock markets or materially adversely affects the Group;
- (m) the occurrence of a suspension or material limitation (for at least one Business Day) in trading in securities generally on ASX, the New York Stock Exchange, the Hong Kong Stock Exchange, the Singapore Stock Exchange or the London Stock Exchange or a suspension (for at least one Business Day) in trading in the securities of the Company on ASX (other than pursuant to a trading halt); or

As is customary with these types of underwriting arrangements:

- (n) the Company has agreed to indemnify the Underwriter, its officers, employees, and agents and advisers against losses incurred in connection with the Entitlement Offer, the Offer Document and the performance of the Underwriting Agreement other than

where the losses have resulted from the fraud, wilful default, breach of contract or negligence of the indemnified person or in certain other circumstances; and

- (o) the Company has provided a full range of warranties and representations to the Underwriter, including about the Entitlement Offer and its compliance with applicable laws.

The Underwriter has given, and at the time of lodgement of this Offer Document, has not withdrawn its consent to be named as the Underwriter to the offer of Shares under this Offer Document, in the form and context in which it is named. The Underwriter was not involved in the preparation of any part of this Offer Document and did not authorise or cause the issue of this Offer Document. The Underwriter makes no express or implied representation or warranty in relation to the Company, this Offer Document or the Entitlement Offer and do not make any statement in this Offer Document, nor is any statement in it based on any statement made by the Underwriter. To the maximum extent permitted by law, the Underwriter expressly disclaims and takes no responsibility for any material in, or omission from, this Offer Document other than the reference to its name.

1.6 Application for Additional Securities

Any Entitlements not taken up may become available as Additional Securities. Eligible Shareholders (other than Directors and related parties of the Company) may, in addition to their Entitlement, apply for Additional Securities, by completing the accompanying Entitlement and Acceptance Form in accordance with the instructions set out on that form.

It is possible that there will be few or no Additional Securities available for issue, depending on the level of take up of Entitlements by Eligible Shareholders. There is also no guarantee that in the event Additional Securities are available for issue, they will be allocated to all or any of the Eligible Shareholders who have applied for them.

It is an express term of the Entitlement Offer that Applicants applying for Additional Securities will be bound to accept a lesser number of Additional Securities allocated to them than applied for, if so allocated. If a lesser number of Additional Securities is allocated to them than applied for, excess Application Monies will be refunded without interest. The Company together with the Underwriters reserve the right to scale back any applications for Additional Securities in its absolute and sole discretion. When determining the amount (if any) by which to scale back an application, the Company and the Underwriters may take into account a number of factors, including the size of an Applicant's shareholding in the Company, the extent to which an Applicant has sold or bought Shares in the Company before and after both the announcement of the Entitlement Offer and the Record Date, as well as when the application was made.

Refer to Section 2.5 for instructions as to how to apply for Additional Shares.

1.7 Shortfall Offer

The Directors as permitted under ASX Listing Rule 7.2 exception 3 reserve the right at their discretion to place any Shortfall remaining after the satisfaction of applications for New Shares by Eligible Shareholders (including applications for Additional Securities made in accordance with Section 1.6 (**Shortfall Offer**)). The Shortfall Offer is a separate offer made pursuant to the Prospectus, on the same terms and conditions as the Entitlement Offer, and will remain open for up to three months from the Closing Date unless closed earlier.

Any investor who is not an Eligible Shareholder at the Record Date and who the Company invites to participate in the Shortfall Offer, will need to follow the procedures advised to them by the Company for applications under the Shortfall Offer.

1.8 Sale of your Entitlement

The rights to Shares under the Offer are renounceable. Accordingly, you may trade your rights on ASX and dispose of your rights to subscribe for Shares to any other party.

If you wish to sell your Entitlement, complete the section marked "instructions to Stockbroker" on the back of the Entitlement and Acceptance Form, which accompanies this Prospectus, in accordance with the instructions therein and lodge it with your stockbroker as soon as possible.

Rights trading commences on Thursday, 2 April 2020 and must be completed by Tuesday, 14 April 2020 when rights trading is expected to cease.

1.9 Entitlement and Acceptance Form

Acceptance of a completed Entitlement and Acceptance Form or Shortfall Application Form by the Company creates a legally binding contract between the Applicant and the Company for the number of Shares accepted. Neither the Entitlement and Acceptance Form nor the Shortfall Application Form needs to be signed to be a binding acceptance of Shares.

If the Entitlement and Acceptance Form or Shortfall Application Form is not completed correctly it may still be treated as valid. The Directors' decision as to whether to treat the acceptance of an Entitlement and Acceptance Form or Shortfall Application Form as valid and how to construe, amend or complete the Entitlement and Acceptance Form or Shortfall Application Form is final.

1.10 Issue

All Shares offered by this Prospectus are expected to be issued, and security holder statements sent, on or before the date specified in the timetable.

It is the responsibility of Applicants to determine their allocation prior to trading in the Shares. Applicants who sell Shares before they receive their holding statements will do so at their own risk.

1.11 Application Monies held on trust

All Application Monies received for the Shares will be held in trust in a bank account maintained solely for the purpose of depositing Application Monies received pursuant to this Prospectus until the Shares are issued. All Application Monies will be returned (without interest) if the Shares are not issued. Depending on the take up of U.S. investors, the Company may establish a U.S. bank account.

1.12 ASX quotation

Application will be made to the ASX no later than 7 days after the date of this Prospectus for the official quotation of the Shares. If permission is not granted by the ASX for the official quotation of the Shares offered by this Prospectus within 3 months after the date of this Prospectus (or such period as the ASX allows), the Company will repay, as soon as practicable, without interest, all Application Monies received pursuant to this Prospectus.

1.13 CHESS

The Company participates in the Clearing House Electronic Subregister System, known as CHESS. ASTC, a wholly owned subsidiary of ASX, operates CHESS.

Under CHESS, Applicants will not receive a certificate but will receive a statement of their holding of Shares.

If you are broker sponsored, ASTC will send you a CHESS statement.

The CHESSE statement will set out the number of Shares issued under this Prospectus, provide details of your holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the Shares.

If you are registered on the Issuer Sponsored subregister, your statement will be sent by the Company's share registrar and will contain the number of Shares issued to you under this Prospectus and your security holder reference number.

A CHESSE statement or Issuer Sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their Security holding changes. Shareholders may request a statement at any other time, however, a charge may be made for additional statements.

1.14 Overseas Shareholders

The Offer is not being extended to any shareholders whose registered address is outside the United States, Australia or New Zealand. The Company is of the view that it is unreasonable to make the Offer to shareholders outside the United States, Australia and New Zealand, having regard to:

- (a) the number of those Shareholders;
- (b) the number and value of Shares to be offered to those persons; and
- (c) the cost of complying with overseas legal requirements.

The Prospectus does not constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer other than for Shareholders in the United States, Australia and New Zealand. The Company is not required to make offers under the Prospectus to Shareholders other than in the United States, Australia and New Zealand. Where the Prospectus has been sent to Shareholders domiciled outside the United States, Australia or New Zealand and where the country's securities code or legislation prohibits or restricts in any way the making of the Offer contemplated by the Prospectus, the Prospectus is provided for information purposes only.

Shareholders resident in the United States, Australia or New Zealand holding Shares on behalf of persons who are resident overseas are responsible for ensuring that taking up Entitlements under the Offer does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

The Offer is being made in New Zealand in reliance on the New Zealand Securities Act (Overseas Companies) Exemption Notice 2013. This document is not a prospectus or investment statement under New Zealand law and has not been registered or filed with, or approved by, any New Zealand regulatory authority under or in accordance with any relevant law in New Zealand. This document may not contain all the information that an investment statement, or a prospectus under New Zealand law is required to contain.

Notwithstanding the above, the Company may (in its absolute discretion) extend the Offer to certain institutional or sophisticated shareholders who have registered addresses outside the United States of America, Australia and New Zealand in accordance with applicable law.

For the purposes of ASX Listing Rule 7.7.1, the Company has appointed the Lead Manager as the nominee responsible for the sale of the Entitlements of any shareholder who is not an Eligible Shareholder, and to account to them the net proceeds of any sales in their respective proportions.

1.15 Beneficial holders, nominees, trustees and custodians

The foreign selling restrictions set out in Section 1.14 of the Prospectus apply with respect to the ultimate beneficial holder. Accordingly, nominees, trustees and custodians must not apply for Shares on behalf of any beneficial holder who would not be an Eligible Shareholder. Nominee, custodian and trustee shareholders should obtain independent advice as to how they should proceed with respect to the Offers.

1.16 Risk factors

An investment in Shares should be regarded as speculative. In addition to the general risks applicable to all investments in listed securities, there are specific risks associated with an investment in the Company which are in Section 3.

1.17 Taxation implications

The Directors do not consider it appropriate to give Shareholders advice regarding the taxation consequences of subscribing for Shares under this Prospectus.

The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Shareholders. As a result, Shareholders should consult their professional tax adviser in connection with subscribing for Shares under this Prospectus.

1.18 Major activities and financial information

A summary of the major activities and financial information relating to the Company for the financial year ended 31 December 2019 is set out in the Annual Financial Report of the Company which was lodged with the ASX on 28 February 2020.

A summary of activities relating to the Company for the half year ended 30 June 2019 is in the Company's Consolidated Half-Year Report which was lodged with the ASX on 30 August 2019.

The Company's continuous disclosure notices (i.e. ASX announcements) since 25 March 2020 are listed in Section 5.5.

Copies of these documents are available free of charge from the Company. Directors strongly recommend that Shareholders review these and all other announcements prior to deciding whether or not to participate in the Offer.

1.19 Privacy

The Company collects information about each Applicant provided on an Entitlement and Acceptance Form for the purposes of processing the Acceptance and, if the Acceptance is successful, to administer the Applicant's security holding in the Company.

By submitting an Entitlement and Acceptance Form, each Applicant agrees that the Company may use the information provided by an Applicant on the Entitlement and Acceptance Form for the purposes set out in this privacy disclosure statement and may disclose it for those purposes to the share registry, the Company's related bodies corporate, agents, contractors and third party service providers, including mailing houses and professional advisers, and to ASX and regulatory authorities.

If you do not provide the information required on the Entitlement and Acceptance Form, the Company may not be able to accept or process your Acceptance.

An Applicant has an entitlement to gain access to the information that the Company holds about that person subject to certain exemptions under law. A fee may be charged for access. Access requests must be made in writing to the Company's registered office.

1.20 Effect on Control

Given the Offer is pro rata, being conducted on a 2 for 5 ratio there is not expected to be any significant impact on the control of the Company by the completion of the Offer if the Offer is fully accepted.

1.21 Potential Dilution

In addition, Shareholders should note that if they do not participate in the Offer their holdings are likely to be diluted. The following table sets out the dilutionary effect, assuming the full amount is raised and no further Shares are issued or option exercised:

Holder	Holding at Record Date		Entitlement	Holding following Offer if Entitlement not accepted

3. Risk Factors

Activities in the Company, as in any business, are subject to risks, which may impact on the Company's future performance. The Company has implemented appropriate strategies, actions, systems and safeguards for known risks, however, some are outside its control.

The Directors consider that the following summary, which is not exhaustive, represents some of the major risk factors which Shareholders need to be aware of in evaluating the Company's business and risks of increasing your investment in the Company. Shareholders should carefully consider the following factors in addition to the other information presented in this Prospectus.

The principal risks include, but are not limited to, the following:

3.1 Specific Risks Associated with the Company

(a) Reliance on key personnel

The Company's research and development and its operational success will substantially depend on the continued employment of senior executives, technical staff and other key personnel. In particular, the Company's ability to successfully develop and commercialise the MagSense™ technology will substantially depend on the continued employment by the Company and its subsidiaries of key technical personnel experienced in the life science and medical device product development, such as Robert Proulx, Marie Zhang, and Oliver Steinbach. The loss of key personnel is likely to have an adverse effect on the Company's operations and financial performance.

(b) Regulated industry

The medical device technology industry is highly regulated in Australia, the United States and other countries which the Company may conduct business operations. While the Company is not aware of any reason why the MagSense™ System would not be able to transition from pre-clinical to clinical product development and human testing stages, the Company cannot guarantee that this will occur in a timely manner or at all. The capabilities, testing, maintenance and stability of the MagSense™ technology is subject to regulatory and legal requirements, and any amendment to existing legislation or regulations in countries where the Company operates may adversely affect the Company's business operations. Any actual or alleged breach of such legislation or regulations could result in the Company or any of its subsidiaries being subject to delayed filings or review, remedial actions, such as product recalls, or penalties, or litigation. Following commercialisation of the MagSense™ technology, the Company will be subject to United States, Australian or any other applicable jurisdictional laws and regulations concerning the post market surveillance of medical device products.

(c) Product risk

The MagSense™ technology and associated specific cancer tests are still at the development stage and each is a new application and has not been fully proven. The detection of a specific type of cancer depends on the availability and functionality of tumour specific targeting moieties, e.g. antibodies, peptides, or ligands. The Company cannot guarantee that targeting moieties will be available to achieve the bio-functionality needed for any given application. Additionally, while safety and toxicology studies have been undertaken for the Company's first product, a test for HER2 Metastatic Breast Cancer, clinical studies in humans have not yet been conducted. Review of the safety and toxicology studies by regulators and clinical collaborators is in process but may result in the need for additional studies or pre-clinical development before approval for undertaking a clinical study. Furthermore, the product may demonstrate adverse effects or the clinical study may fail to prove the technology's effectiveness. There is an inherent risk that development of the technology will not progress as planned or achieving regulatory clearance may take longer than planned which could require the Company to raise more capital.

(d) Commercialisation risk

To the extent that the MagSense™ technology is relatively untested, there is no certainty that the technology will be commercially viable, and the profitability and sustainability of the Company's business model is uncertain. There is no guarantee that any of the Company's research, development or commercialisation plans and activities in relation to the MagSense™ technology will be successful, that the Company will reach its development milestones or that the MagSense™ technology and related tests will be commercially exploitable. There can be no assurance that the Company will attract a commercial licensee or partner, which may delay commercial onset or require the Company to raise more capital to build a commercial organization.

There is no certainty that medical professionals or other potential consumers will take up Imagination's products. The products retailed by the Company, its licensee, or partner may be unable to compete with established medical device technologies on price or accuracy or may be unsuited to the established preferences or methods of medical professionals or other potential consumers. The outcome of clinical studies may result in restrictions to the approved claims and commercial use of the MagSense™ technology.

(e) Product liability

Developing and commercialising medical devices carries an inherent risk of product liability. Any product liability claims are likely to disrupt the Company's business operations and may cause reputational harm by leading medical professionals and other consumers to doubt product accuracy, safety or quality, adversely impacting the Company's financial performance.

(f) Competition

The development of a new and superior diagnostic test in a field where the Company is planning to operate (such as prostate cancer, HER2+ breast cancer or ovarian cancer) by a competitor could adversely affect the Company's ability to commercialise the MagSense™ technology. There is a risk that existing competitors or new entrants to the market may develop more cost effective technologies, or technologies better suited to the needs of medical practitioners, which could have an adverse effect on the Company's business and financial position. The Company may be unable to develop further products or keep pace with rapid technological developments in its market space, and may lose market share to its competitors.

(g) Intellectual property rights

The Company's ability to license the technology or attract commercial partners to retail its products is largely dependent on the Company protecting the monopoly rights to exploit the inventions and methods described in the Patents held by Imagination.

The Company cannot provide any assurance that the Patents will provide adequate protection for Imagination's intellectual property, or that third parties will not infringe or misappropriate its Patents or similar proprietary rights. In such an event, Imagination may have to pursue litigation against other parties to assert its rights.

While the Company is not aware of the MagSense™ technology infringing any third party's patent, it has not undertaken an exhaustive assessment of existing patents. Accordingly, there is a risk that a third party may claim that the MagSense™ technology (including as set out in the Patents) infringes that third party's patent.

Any event that would jeopardise Imagination's proprietary rights or any claims of infringement by third parties could have an adverse effect on the Company's commercial plans for the MagSense™ technology or the ability to exploit its rights.

The detection of a specific type of cancer depends on the availability of tumour specific targeting moieties, e.g. antibodies, peptides, or ligands. The Company cannot guarantee that targeting moieties will be available to license for any given application or at commercially reasonable terms.

(h) Going Concern

The Company's most recent financial reports included a 'going concern' qualification. Notwithstanding the 'going concern' qualification included in the financial report, the Directors believe that upon the successful completion of the Offer, the Company will have sufficient funds to adequately meet the Company's current commitments and short term working capital requirements as outlined in Section 1.2. However, it is highly likely that further funding will be required to meet the medium to long term working capital costs of the Company.

In the event that this Offer is not successfully completed, the Company will need to seek alternative funding to continue its operations. The Company's failure to raise sufficient capital (if and when needed) could delay or suspend the Company's business strategy and could have a material adverse effect on the Company's activities.

(i) Additional requirement for capital

The Company intends to apply the funds raised under the Offer towards the costs of preparing for an initial human clinical study, but they will not be sufficient to cover the entire costs. If the Company is unable to raise further funds to complete human testing, the Company's plans for development of the MagSense™ technology are likely to be delayed and its financial performance are likely to be adversely affected.

3.2 General Risks

(a) COVID-19

The world is currently dealing with a virus known as COVID-19 which has caused major disruption to the world economy. The effects on the world economy are many and varied and any investment in the Company may be affected by business disruption caused by COVID-19.

(b) Market conditions

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) currency fluctuations;
- (v) changes in investor sentiment toward particular market sectors;
- (vi) the demand for, and supply of, capital; and
- (vii) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and technology stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(c) Economic and government risks

The future viability of the Company is also dependent on a number of other factors affecting performance of all industries, but not limited to, the following:

- (i) general economic conditions in jurisdictions in which the Company operates;
- (ii) changes in government policies, taxation and other laws in jurisdictions in which the Company operates;
- (iii) the strength of the equity and share markets in Australia and throughout the world, and in particular investor sentiment towards the biotech and med-tech sector;
- (iv) movement in, or outlook on, interest rates and inflation rates in jurisdictions in which the Company operates; and
- (v) natural disasters, social upheaval or war in jurisdictions in which the Company operates.

(d) **Litigation**

The Company is exposed to the risk of actual or threatened litigation or legal disputes in the form of customer claims, intellectual property claims, personal injury claims, employee claims and other litigation and disputes. If any claim was successfully pursued it may adversely impact the financial performance, financial position, cash flow and share price of the Company.

(e) **Investment risk**

The Shares to be issued pursuant to this Prospectus should be considered speculative. They carry no guarantee as to payment of dividends, return of capital or the market value of the Shares. The prices at which an investor may be able to trade the Shares may be above or below the price paid for the Shares. While the Directors commend the Offer, prospective investors must make their own assessment of the likely risks and determine whether an investment in the Company is appropriate to their own circumstances.

3.3 Investment speculative

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Shares offered under this Prospectus.

Therefore, the Shares to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Shares.

Potential investors should consider that the investment in the Company is highly speculative and should consult their professional advisers before deciding whether to apply for Shares pursuant to this Prospectus.
